HOW DO WE CHARGE FEES AND INTEREST?

- If you have been paying off the entire statement outstanding every month, you are tagged as a “transactor” and will not be charged any interest.
- If you pay any amount less than the total amount due, you are tagged as a “revolver” and will be charged interest as follows:
 - For transactions done in current billing cycle, interest will be charged from the date of transaction until date of repayment (this will show up in your next statement)
 - For outstanding balance carried over from previous months, interest will be charged on a monthly basis using the interest rate that is assigned to you. Please note that no interest will be charged on the outstanding interest amount on your credit card account, if any.
 - As a revolver, if you pay off your entire outstanding balance, your next statement will carry interest charges for the number of days between your last statement date until full repayment date

 - 1) Interest
 - 2) All fees & charges

While there are no alternatives to the io Card, here are some other payment options available

Cash

Debit card:

If you have just purchase needs, you may consider using a debit card. When you use a debit card, the payment is made using the funds available in your account with Mashreq, and hence there would be no late payment fee or finance charges on the debit card. However, please note that you can enjoy up to 55 days of interest-free credit on credit card purchases, which is not available on debit cards. Purchases on your credit card would also typically earn you higher Cashback or Mashreq Vantage points (depending on your credit card type) compared to debit card purchases. For the detailed benefits and pricing, please visit the Mashreq website at <https://www.mashreqbank.com/en/uae/personal/cards>

Personal loan:

If you have medium to long term borrowing needs, a personal loan may be better suited to your needs. For short term borrowing, a credit card is a convenient and advisable solution.
